

Juan Angel Sixto,
medical student, Zaachila,
June 2025

San Jorge Nuchita, Huajuapán de León, Oaxaca, a 24 de junio de 2025

Dear Members of the Board of TASH,
The undersigned, Juan Angel Sixto Ventura, a medical student, would like to express my sincere gratitude for the support I have received from TASH and from the Oaxaca Education Fund. As a medical student, I deeply value the opportunity to continue my studies and achieve my goal.

I especially extend my warmest regards to the Orthopedic Doctor Charles Gates, Director. I would be pleased to share with you about my career. I recently completed the fourth semester of my degree, a stage that has represented significant growth in both knowledge and basic clinical skills. I have enjoyed this journey, and continue to enjoy it, fueling my passion for the fine art of medicine.

Sincerely,
JUAN ANGEL SIXTO VENTURA

DEVELOP YOUR VALUES AND RECOGNIZE YOUR QUALITIES;
THEY WILL GROW AND DISPLACE YOUR DEFECTS

graduation ceremony in
Oaxaca, June 2025

OAXACA, a 25 de junio de 2025

Dear Members of the Board of TASH,

My name is Yareli Paola Ventura Valencia, originally from the community of San Jerónimo Nuchita in Oaxaca. I am currently an eighth-semester registered nursing student at the Benito Juárez Autonomous University of Oaxaca. I would like to express my gratitude to TASH and the Oaxaca Education Fund, and also to Mr. Pete Noll, the former director of TASH in Oaxaca. Thanks to your support, I have been able to complete my university studies. Now I can say that I am much closer to achieving my goal. I am very happy and pleased to inform you that I completed my eighth-semester coursework with an 8.25 GPA, beginning my graduation process.

Next school year (2025-26), I will be dedicating my year of community service to my social service at a clinic or hospital. I don't yet have specific details about where I will be doing it for administrative reasons, but I will do my best to complete it without any problems, and with the hope that it will be a year of great learning. Reaching this point would not have been possible without the collective support of everyone who has contributed, so that all of us beneficiaries can achieve our goals. I am infinitely grateful for all the support TASH has provided and I send you my warmest regards, hoping that you are all well.

Sincerely,
YARELI PAOLA VENTURA VALENCIA

Dear Members of the Board of TASH,

I write to you with a heart full of gratitude and emotion as I recall the path that has brought me here. My graduation is just around the corner, and I can't help but feel a mixture of excitement and nostalgia as I think about July 3rd, when I will finally cross that threshold that marks the end of one stage and the beginning of another.

These have been years of effort, challenges, and growth, and without a doubt, your support has been fundamental in this journey. The scholarship that TASH provides is not just financial aid; it is a vote of confidence in our potential and an opportunity to dream beyond what we could achieve alone. Thanks to you, I have been able to focus on my studies and become the best version of myself.

Once this stage is completed, I will continue fulfilling the final requirements of my academic program, which include six months of community service and approximately two additional months to complete my thesis. I am committed to completing these processes with dedication, always proudly recalling the support that TASH has provided me. I reiterate my deep gratitude for believing in me and my potential. For community service I will be a project extensionist in my village, San Juan Pinas, which sits at 8000 feet in a large pine forest. An "extensionist" is a professional dedicated to bringing knowledge and techniques to rural communities, especially in the agricultural sector, with the goal of improving their practices and productivity. They may also be called extension agents or rural extensionists. We will be monitoring the forest: flora and fauna, and doing reforestation.

Your support has not only impacted my life, but also motivates me to continue moving forward and contributing positively to society. I hope you continue to provide this invaluable assistance to future students, who, like me, find TASH a fundamental pillar to achieve their academic goals.

I remain at your disposal for any additional information and wish each member much success and blessings.

Sincerely,
ITZEL MENDOZA RAMOS

Lorenza Rojas Espinoza

Dear Members of the Board of TASH,

Thanks to the support of the foundation and God's help, I have been able to move forward with my projects and my studies for the Bachelor of Science in Nursing. This year, I have taken several courses focused on pediatric patient care. It has been very helpful to remember certain procedures, calculating medications based on the newborn's weight, the pathology they present, and the equipment used in the case of a mechanical ventilator.

So far, I can say that I have become accustomed to living alone. At first, I missed my family all the time. Of course, I miss them now, but I know that on vacation or on the weekends, they will be waiting for me. I thank God that my parents are living. I long for the day that they can be present with me when I receive my degree in Nursing.

The ceremony for potential graduates will be in December 2025. We do not have a date yet, but it will mark the end of our academic classes, and in 2026, we will begin our professional service in a hospital. Positions will be chosen based on our GPA. The highest GPA candidates will be able to choose where they do their social service. My academic average in May 2025 was 88%. I plan to do my service in San Quintín, Baja California, close to my family. But I am open to any possibility. Wherever it may be. I know I will learn a lot.

I will always be grateful to God for having placed people like you in my path. You are a great support to me. May God grant you patience and a long life to continue this excellent work.

Sincerely,
LORENZA ROJAS ESPINOZA

Dear Members of the Board of TASH,

The undersigned, Rosa Lizbet Sixto Ventura, a student of the Bachelor's Degree in Integrative Medicine and Community Health, based in Villa de Zaachila, Oaxaca, is, above all, eternally grateful for the support I have received from the Oaxaca Education Fund and from TASH, as you have been a blessing to continue my studies and achieve my goals. May the Lord bless you and shower you with many more blessings for this great opportunity such as studying.

A special greeting to the Director, Orthopedic Doctor Charles Gates. I would like to tell you a little about these five semesters of my career. It could be said that the most important thing for a human being to enjoy their life without any illness is to prioritize their "HEALTH."

At the beginning of my studies, I took anatomy, a science that studies each structure that makes up our body. From then on, I began to like the program more, and my curiosity about it grew. I took physiology, microbiology, and pathophysiology. At first, they were difficult for me to understand, since you don't just study for an exam, but for life. But reading and putting them into practice made it a little easier. Despite all the late nights, not eating regularly, and how difficult it can be, I will put my all into becoming a good and excellent "DOCTOR."

"IF YOU CAN'T CURE, RELIEVE. IF YOU CAN'T RELIEVE, COMFORT.

IF YOU CAN'T COMFORT, ACCOMPANY."

Sincerely,

ROSA LIZBET SIXTO VENTURA
